

Press release

AkzoNobel
Tomorrow's Answers Today

AkzoNobel Aerodur 3001 / Aerodur 3002 qualified to BAMS 565-018

AkzoNobel Aerospace Coatings is delighted to announce the qualification of their Aerodur® 3001 and Aerodur 3002 , Base Coat/ Clear Coat system by Bombardier Aerospace Materials and Processes Engineering.

The exterior coatings system, qualified under BAMS 565-018 specification, comprises a chromate free primer, a base coat and a clear coat.

The reliable system offers a quick drying time between coats, saving as much as 30% on process time and allowing even complex liveries to be completed more quickly before returning the aircraft to service.

The fast-drying base coat provides opacity with less film thickness whilst the clear top coat gives a superb and long lasting gloss and color retention that will help airlines to consistently project and reinforce visual identity. The smooth finish offers excellent weather resistance in addition to lower dirt adhesion and better cleaning properties.

AkzoNobel is the largest global paints and coatings company and a major producer of specialty chemicals. We supply industries and consumers worldwide with innovative products and are passionate about developing sustainable answers for our customers. Our portfolio includes well known brands such as Dulux, Sikkens, International and Eka. Headquartered in Amsterdam, the Netherlands, we are a Global Fortune 500 company and are consistently ranked as one of the leaders in the area of sustainability. With operations in more than 80 countries, our 55,000 people around the world are committed to excellence and delivering Tomorrow's Answers Today™.

AkzoNobel Aerospace Coatings

At AkzoNobel Aerospace Coatings we strive to develop, manufacture and supply high-quality coating solutions to serve the current and future needs of the aviation industry worldwide. We are always finding ways to improve our products and provide new practical answers to customer's needs including reduced process times, technical support, enhanced protection to aircraft, and unique colors with brilliance.

Safe Harbor Statement

This press release contains statements which address such key issues as AkzoNobel's growth strategy, future financial results, market positions, product development, products in the pipeline, and product approvals. Such statements should be carefully considered, and it should be understood that many factors could cause forecasted and actual results to differ from these statements. These factors include, but are not limited to, price fluctuations, currency fluctuations, developments in raw material and personnel costs, pensions, physical and environmental risks, legal issues, and legislative, fiscal, and other regulatory measures. Stated competitive positions are based on management estimates supported by information provided by specialized external agencies. For a more comprehensive discussion of the risk factors affecting our business please see our latest Annual Report, a copy of which can be found on the company's corporate website www.akzonobel.com.
