AkzoNobel
Tomorrow's Answers Today

AkzoNobel Aerospace Coatings Reinforces Positioning Within Chinese Market as COMAC Approve 463-12-8 and 21 Series

AkzoNobel Aerospace Coatings is pleased to be liaising with the Commercial Aircraft Corporation of China (COMAC) following COMAC's approval of an interior, fluid resistant epoxy primer (463-12-8) and a high solids epoxy topcoat (21 series).

The chemically cured, two component primer offers high protection from chemicals, hydraulic fluids, aviation fuels and corrosion causing media. The topcoat is also designed to provide the same chemical protection as the primer while meeting low VOC requirements and is available in gloss, semi-gloss and flat finishes.

AkzoNobel Aerospace Coatings, having established a number of Chinese locations, is delighted to be reinforcing their positioning within the Chinese aviation market and look further to develop their relationship with COMAC through the development of the C919 commercial, narrow-body airliner in the coming years.

AkzoNobel is the largest global paints and coatings company and a major producer of specialty chemicals. We supply industries and consumers worldwide with innovative products and are passionate about developing sustainable answers for our customers. Our portfolio includes well known brands such as Dulux, Sikkens, International and Eka. Headquartered in Amsterdam, the Netherlands, we are a Global Fortune 500 company and are consistently ranked as one of the leaders in the area of sustainability. With operations in more than 80 countries, our 55,000 people around the world are committed to excellence and delivering Tomorrow's Answers Today™.

AkzoNobel Aerospace Coatings

At AkzoNobel Aerospace Coatings we strive to develop, manufacture and supply high-quality coating solutions to serve the current and future needs of the aviation industry worldwide. We are always finding ways to improve our products and provide new practical answers to customer's needs including reduced process times, technical support, enhanced protection to aircraft, and unique colors with brilliance.

Safe Harbor Statement

This press release contains statements which address such key issues as AkzoNobel's growth strategy, future financial results, market positions, product development, products in the pipeline, and product approvals. Such statements should be carefully considered, and it should be understood that many factors could cause forecasted and actual results to differ from these statements. These factors include, but are not limited to, price fluctuations, currency fluctuations, developments in raw material and personnel costs, pensions, physical and environmental risks, legal issues, and legislative, fiscal, and other regulatory measures. Stated competitive positions are based on management estimates supported by information provided by specialized external agencies. For a more comprehensive discussion of the risk factors affecting our business please see our latest Annual Report, a copy of which can be found on the company's corporate website www.akzonobel.com.
