Non-Slip Topcoat ▶

Aviox® Non-Slip is a three-component, polyurethane walkway coating primarily used to provide a safe and protective surface that prevents passengers from slipping during an emergency evacuation. It is applied to the marked over-wing escape routes, cargo floor panels or other surfaces where non skid properties are required.

Full color range

This user friendly product is available in a full color range to match the livery of the aircraft and it is qualified to the Airbus specification AIMS 04.04.024. The Aviox Non-Slip walkway coating has excellent durability properties and can be applied by regular air-spray techniques or roller. With non-slip additive pre-mixed in the base component, the product is ready to use.

Latest technology

Aviox Non-Slip is part of the Aviox Advanced Series which utilizes the latest high solid technology and sets the standard for minimum process times and reduced process cycle costs.

The Aviox Advanced Series are formulated to yield a low dry film density, which can help reduce the overall aircraft weight and in turn can contribute to lower fuel costs during operation. Aircraft manufacturers and airlines gain an added performance advantage when they apply the Aviox Advanced Series system to their aircraft.

The complete coating system

AVIOX® ADVANCED SERIES	APPLICATION	QUALIFICATIONS
Aviox® CF Primer 37124	Primer	AIMS 04.04.031/032
Aviox® Primer 37098		AIMS 04.04.013
Aviox® Finish 77702	Topcoat	AIMS 04.04.031/032 AIMS 04.04.013
Aviox® Advanced Mica	Special effect topcoat	AIMS 04.04.025
Aviox® Clearcoat UVR	Clearcoat	AIMS 04.04.023
Aviox® Non-Slip	Walkway topcoat	AIMS 04.04.024
Aviox® SGL Aluminum	Metallic topcoat	Messier-Dowty PCS 2530
Aviox® Matt Clear	Anti glare topcoat	AIMS 04.04.023
